

## State Proposals for Medicaid Work and Community Engagement Requirements

In January 2018, the Centers for Medicare & Medicaid Services (CMS) issued a new [policy](#) allowing states to implement work and community engagement requirements for certain Medicaid enrollees. States would be permitted to seek federal approval to require non-elderly, non-pregnant, and non-disabled adults to participate in these types of activities to qualify for Medicaid or certain aspects of Medicaid coverage. This chart summarizes states' pending and approved Section 1115 waivers, waiver renewals, and waiver amendments to implement work and community engagement requirements.
