A non-profit and non-partisan organization, NASHP provides a forum for constructive work across branches and agencies of state government on critical health issues.

At NASHP, we provide a unique forum for productive interchange across all lines of authority, including executive offices and the legislative branch.

For over 30 years NASHP has been a trusted, bipartisan resource for busy state health policymakers. Through identifying best practices, developing policy options to address tough issues and forging partnerships across agency and executive and legislative branches, NASHP advances innovation in state health policy.

As part of our mission to help states achieve excellence in state health policy and practice, we offer opportunities to partner, sponsor, and exhibit with us.

This year we celebrate the 33rd Annual State Health Policy Conference. Planned by state health policymakers for state health policymakers, NASHP’s annual event stands out as a “must-attend” for the state health policy community.
