Enhancing Developmental Outcomes for Children: Help Me Grow Connecticut

Joanna Bogin, Children’s Trust Fund
ABCD Training Academy
February 20, 2008
Components

Help Me Grow

- A coordinated, statewide referral system that links young children and their families to existing services and support
- Train child health providers to monitor child development and link families to services
- Encourage families to track their child’s development
- Provide outreach and care coordination to decrease the number of families that feel isolated and lack information and access to services
- Create a resource inventory of community-based programs that support child development and families
- Perform data collection and analyses
Connecticut's Child Development Infoline
The Gateway to Help and Referrals for Pediatric Professionals, Parents, and Providers
1-800-505-7000

Connecticut Birth to Three System
Birth to 36 months of age
For children birth to 36 months of age with developmental delays or disabilities.
- Evaluation
- Services to eligible children and their families
- Service Coordination

Help Me Grow

- Respite Services
- Linkage to health care services
- Support for community-based resources
- Transition Planning

Participating Agencies
Children's Trust Fund, Department of Mental Retardation, Department of Public Health, Department of Education, United Way of Connecticut
WHO CAN CALL?

Help Me Grow

• Families

• Providers, including
  – Pediatric primary care providers
  – Early care and education professionals
  – State agency staff
  – Others working with children and families
Many families that call Help Me Grow report that they already knew of the program (60%). However, families often learn about Help Me Grow from their pediatricians or are transferred when they call the State’s 211 Infoline System at the United Way.
Child Development Infoline
Care Coordinators

- Have substantive knowledge
- Have bilingual capability, culturally sensitive
- “Real time” research and connections
- Have ongoing training & support
- Regional Child Development Liaisons (CDL) provide technical assistance
The percentages of reasons for calling have mostly stayed the same among the different categories over the past three years. However, there has been an overall increase in the number of reasons for calling; that is, the number of service requests or presenting issues per family have increased.
The top 5 program referrals for the past three years include referrals for education services, most of which are for Preschool Special Education (93%), the Ages & Stages Child Monitoring Program, Infoline (e.g., basic needs), disability related services, and parent education.
Ages & Stages Statewide Program

• In 2006 more than 2,163 families kept track of their child’s development by using the Help Me Grow Ages & Stages monitoring system

• Since June 30, 2002 participation in the Ages & Stages program has increased 63%

• Distribution of statewide Ages & Stages Child Development Kits at four month well baby visits to all pediatric offices to encourage universal monitoring
Statewide ASQ

Child Development Infoline
Active ASQ Cases
June 2002 - June 2006

June 30, 2002: 1326
June 30, 2003: 1383
June 30, 2004: 1685
June 30, 2005: 1932
June 30, 2006: 2163
Two Effective Developmental Screening Tools

At the 9, 18, and 24(30) month visits:

• PEDS (Parents’ Evaluation of Developmental Status)

• Ages & Stages Questionnaire
GOOD NEWS!

HUSKY and many insurance plans will **reimburse** for Developmental Screening with a Standardized Tool at 9, 18 and 24 (30) month well child visits

- Developmental Screening CPT code: 96110
- Well child visit CPT code: 99381 or 99391
Practices that received Help Me Grow Training

* In just one year, Help Me Grow has trained 150 pediatric and family practices in developmental monitoring.
Trained practices identified more children with delays than before their training (and than untrained practice)

- Percent visits reviewed that identified a developmental concern

Ingredients for comprehensive, coordinated system

- A single point of entry
- Community networking efforts
- Staff that perform research, outreach, advocacy
- Data collection
- Training and support of child health providers
“Children with developmental problems are eluding early detection. Programs exist to help them, but we too often fail to link these children with the resources they need. Help Me Grow is that link”

Dr. Paul Dworkin
